Professional Summary

Motivated UI/UX Designer and Flutter Developer with hands-on experience in designing and developing user-centered web and mobile applications. Skilled in creating intuitive interfaces using Figma and implementing responsive, high-performance applications using Flutter and modern frontend technologies.

Strong understanding of usability, interaction design, and product-focused design thinking, combined with practical development experience in Flutter, Dart, and frontend frameworks. Experienced in collaborating with developers and cross-functional teams to deliver seamless and consistent digital experiences.

Currently pursuing postgraduate studies in the United Kingdom and seeking internship or part-time opportunities in UI/UX Design, Flutter Development, Frontend Development, and digital product design. Available for part-time and internship roles in the UK.

Education

Ulster University <i>MSc in Computer Science and Technology</i>	Manchester, United Kingdom 2026 – Present
Tribhuvan University <i>Bachelor in Computer Applications (BCA), CGPA: 3.37</i>	Kathmandu, Nepal 2020 – 2025
National Examination Board (NEB) <i>Higher Secondary Education (+2 Science), CGPA: 3.38</i>	Kathmandu, Nepal 2018 – 2020

Work Experience

Cognix Insights (formerly Waterflow Technology) <i>Associate UI/UX Designer</i>	Kathmandu, Nepal Aug 2025 – Mar 2026
- Designed modern and user-friendly interfaces for web and mobile applications. - Collaborated with developers and stakeholders to improve usability and product consistency. - Created reusable design systems, interactive prototypes, and high-fidelity UI screens using Figma. - Supported Flutter-based frontend implementation to maintain design accuracy and responsiveness. - Participated in product discussions, requirement analysis, and iterative design improvements.	

Internship Experience

Cognix Insights (formerly Waterflow Technology) <i>UI/UX Design Intern</i>	Kathmandu, Nepal Nov 2024 – Feb 2025
- Designed wireframes, user journeys, and interactive prototypes for real-world applications. - Assisted in usability testing and applied feedback to improve user experience. - Worked alongside developers to support Flutter-based UI implementation. - Gained practical experience in agile workflows, design collaboration, and product development.	

Projects

Connect Infinity – Call Center Management System: Designed dashboards, ticket management workflows, reporting interfaces, and call tracking systems focused on operational efficiency and usability.

Naasa X – Trading Platform: Contributed to UI/UX design for a web and mobile trading platform while collaborating closely with development teams to ensure consistent user experience.

Naasa KYC – Digital Identity Verification System: Designed secure user flows and contributed to Flutter-

based form implementation, validation systems, and user experience enhancements.

AgriLink – Smart Agriculture Platform: Designed and developed a digital platform connecting farmers and vendors directly while integrating machine learning concepts for recommendations and predictive insights.

Technical Skills

Design: UI/UX Design, Wireframing, Prototyping, User Research, Interaction Design, Usability Testing, Design Systems, Responsive Design, User Flows

Development: Flutter, Dart, React, .NET, Python, Frontend Development, Mobile App Development

Tools: Figma, Canva, Jira, ClickUp, Azure DevOps, Android Studio, Visual Studio

Soft Skills: Communication, Team Collaboration, Problem Solving, Time Management, Adaptability, Attention to Detail

Certifications

Advanced UI/UX Design with Figma

Motion Design with Figma
